## EXPERIENCE

## About TMMSI

TMMSI is a service based company that provides consulting services using exclusive in-house products. **We are a small company with big business capabilities** and as such, you can take comfort in the fact that we are eager to please and we can deliver just like the big guys do, or better. Our goal is to bring our big company experiences to you at a personal one-on-one level. In the past, this would not have been possible. But, today's technology has enabled this possibility as long as you have people that are driven.

At TMMSI, our people are driven. We are driven by the KARE Model of Excellence. **KARE stands for Knowledge, Accountability, Responsiveness, and Experience.** Using this KARE Model of Excellence, we have built a reputation that differentiates our products and services from all others. So, if you are ready for a new kind of consulting service, you are ready for TMMSI.
